This notice is to inform the public that the S. C. Department of Health and Environmental Control (DHEC) is taking public comments on a Corrective Action Plan (CAP). This CAP addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released from the underground storage tank system at this facility. Based on current data, the release does not pose a threat to human health or the environment.

Any interested person(s) may submit written comments concerning the cleanup to DHEC's Project Manager listed below.
